**CITY OF KELOWNA**  
**MEMORANDUM**

---

**DATE:** February 19, 2002  
**File No.:** 5460-02  
**To:** City Manager  
**From:** Transportation Manager  
**Subject:** **ADDING BLOCK NUMBERS TO STREET NAME SIGNS**  
Report Prepared by: Dale Beaudry, Roads & Equipment Superintendent

---

**RECOMMENDATION:**

THAT Council approve replacing existing street name signs with signs that include the block numbers as part of the City's regular maintenance program as per Option 1 of the Transportation Managers report dated February 19, 2002.

**DISCUSSION**

During 2002 Budget Review, Council asked staff to review options for adding block numbers to street name signs. Staff considered the following options:

Option 1:

Replace existing signs whenever the street name sign is being replaced as part of our regular maintenance program. All signalized intersections already have the block numbers on the signs. It is estimated this option would take 20 plus years to change over all signs. If this option is selected, it would have no significant Budget impact.

Option 2:

Replace all street name signs, on a priority basis, over a five-year period. This option would have a budget impact of \$28,550/yr. for five years.

Option 3:

Replace only those street name signs that are located on major routes. All others to be replaced as part of our regular maintenance program. Depending on which streets were picked, this option would have the following Budget impact:
