3.0 BACKGROUND

3.1 The Proposal

Site Location Map

3.3 Existing Development Potential

The property is zoned RU1 – Large Lot Housing. The purpose of this zone is to provide for single detached housing as a principal use, and compatible secondary uses, such as bed and breakfast homes, minor care centres and group homes, as well as home based businesses.

Secondary suites are allowed on lots with RU1s – Large Lot Housing with Secondary Suite zoning.

3.4 Current Development Policy

3.4.1 Kelowna Official Community Plan

The proposal is consistent with the designation of Single/Two Family Residential in the Official Community Plan future land use designation. The Single/Two Family Residential designation covers single detached homes for occupancy by one family, single detached homes with a secondary suite, semi-detached buildings used for two dwelling units, and complementary uses (OCP, Chapter 15).

The OCP designates the area in which the subject property is located as the Abbott Street Heritage Conservation Area. The purpose of the Heritage Conservation Area designation is to provide objectives and guidelines for the conservation of the areas' heritage resources and distinct character. One of the objectives of Conservation Areas is to encourage additions that are compatible with the form and character of the existing neighbourhood context.

3.4.2 City of Kelowna Strategic Plan (1992)

One of the objectives of the Strategic Plan is “to develop a more compact urban form by increasing densities through infill and re-development within existing urban areas and to provide for higher densities within future urban areas” (Objective 1.1). The proposal is consistent with these objectives and with their accompanying strategies.

3.4.3 South Pandosy/KLO Sector Plan (1997)

The City of Kelowna will:

- 1) Give consideration to secondary suites in areas currently zoned to allow one and two dwelling units, within walking distance (500m) of Okanagan College and the Urban Town Centre.
- 2) Establish, through more detailed planning, neighbourhood and sub-areas that will permit secondary suites.

4.0 TECHNICAL COMMENTS

The application has been submitted to various technical agencies and City departments, and the following relevant comments have been submitted:

4.1 Inspection Services Department

- The side yard setback shall be 2.0m
- The carport is designed as a small car parking stall

4.2 Works and Utilities Department

The Works & utilities Department has the following comments and requirements associated with this application to rezone from RU-1 to RU-1s

1. General

The proposed rezoning application does not compromise Works and Utilities requirements.

2. Domestic water and fire protection

The existing lot is serviced with a small diameter (13-mm) copper water service which is substandard. Adequate metered water service must be provided to meet current by-law requirements. The applicant will be responsible for the cost to provide this upgrade

3. Sanitary Sewer

This property is currently serviced by the municipal sanitary sewer system. The existing 100mm-diameter service will be adequate for the proposed additional suite and may be retained. An inspection chamber (IC) must be installed on the service and if other modifications to the existing service are required, they will be provided at the owner's cost.

5.0 PLANNING AND DEVELOPMENT SERVICES DEPARTMENT

The Planning and Development Services Department supports the proposed rezoning of the property from RU1 – Large Lot Housing to RU1s – Large Lot Housing with Secondary Suite. The proposal is consistent with the OCP future land use designation of Single/Two Family Residential use and with OCP policies on Secondary Suites. Furthermore, the proposal is also supported by Kelowna's Strategic Plan and the South Padosy/KLO Sector Plan. The applicants have also revised the proposed site plan and have increased the western side yard setback to the required 2.0m.
