Subject: Request for Reconsideration – Development Permit 845 Bay Avenue

The owner of 845 Bay Avenue, Mr. David Tribiger, applied for a Development Permit that was granted by the Director of Planning and Corporate Services. However, Mr. Tribiger objects to condition No. 5 of the Development Permit (requirement to remove driveway access). In accordance with section 9 of the Development Application Procedures Bylaw No. 8140, Mr. Tribiger has asked that the Development Permit be brought before Council as he is dissatisfied with this decision of the Director of Planning and Development Services.

Attached to this Information Report is a letter from Mr. Tribiger and the Report from the Planning and Corporate Services Department recommending that a condition of the Development Permit include the removal of driveway access. In accordance with Bylaw 8140, Mr. Tribiger will have an opportunity to speak before Council.
