Main Floor Plan
 scale: 1/4" = 1'-0"

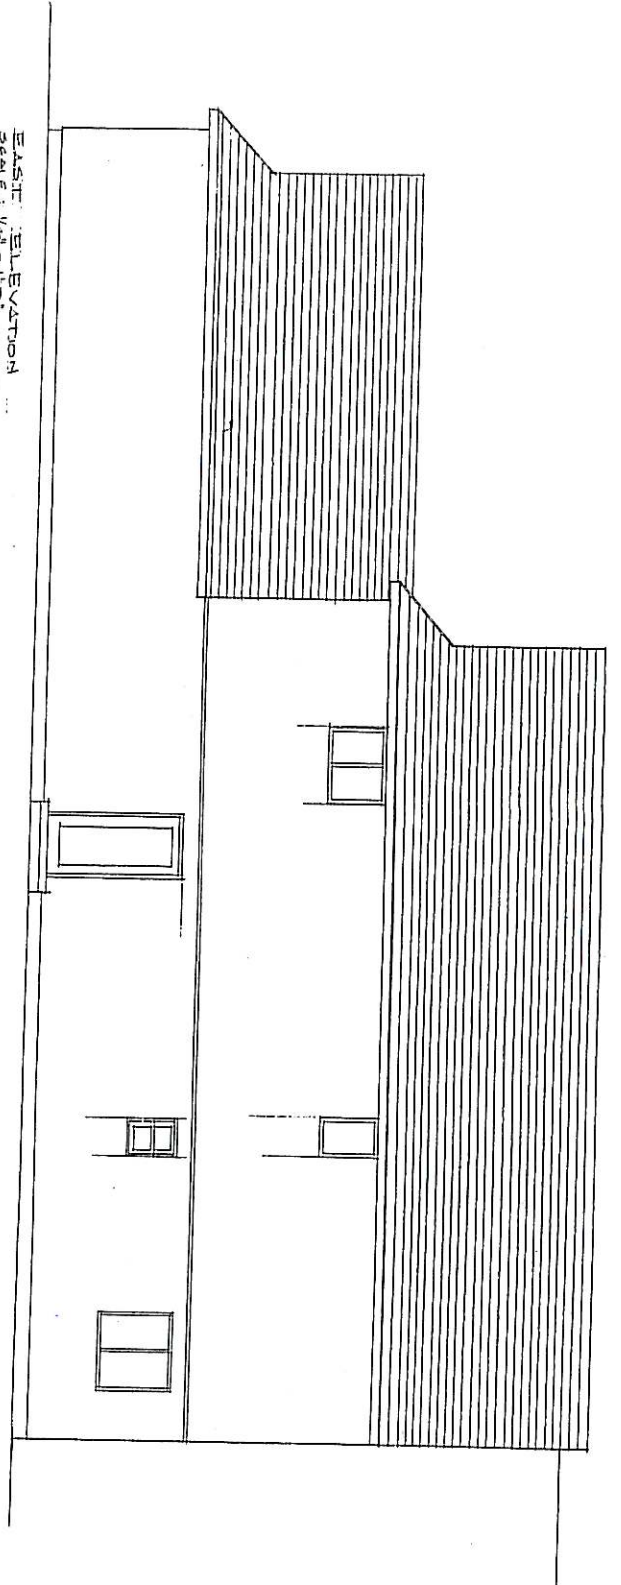

This architectural drawing shows a side elevation of a building. The structure features a gabled roof with a small dormer window on the left side. The main facade has a large, multi-paned window or door on the left and a smaller, single-paned window on the right. The drawing is a line sketch with some shading to indicate depth and form.

This architectural drawing shows a side elevation of a building. The structure features a gabled roof with a large, light-colored triangular section on the right side. The walls are clad in vertical siding. On the left side, there are several windows: a small square window near the top, a larger rectangular window below it, and a series of smaller rectangular windows further down. A small, square, light-colored section is visible on the right side of the facade, possibly a chimney or a small porch. The drawing is a black and white line sketch.
