Subject: Request for Sponsorship - Council Contingency Fund

Good afternoon Mayor Shepherd,

Please find attached a brief outline on the proposed event featuring Dr. Craig Jones. I have also attached his CV again for you information. In review of the proposal, please note that the remainder of the budget (beyond the request to Mayor and City Council) will be covered through John Howard Society. The panel component was included as a means to bring a local perspective to the discussion that will be framed by Dr. Jones's presentation. Apart from Christene Walsh, I have not confirmed the other panel members and those groups listed are just potential suggestions. With this being said, I think we could easily pull together members for a panel and believe the groups I identified in the brief proposal would be important to include in some way. Keep in mind that we are absolutely open to suggestions here and really just wanted to bring the discussion back home through the use of a panel of community experts. Also, I have confirmed the moderator.

Obviously timing is of the essence. I have the room at the Capri booked and it will hold about 100 (but may end up with a slightly larger space that can accommodate more if need be). To ensure proper advertising/notification regarding event, it will be essential to get information out as soon as possible. To that end, whatever can be done to bring this issue forward as soon as is possible for a decision would be best. I do apologize again for the tight timeframes.

Thank you again for your assistance here. Please advise when I might expect to hear back regarding the outcome of this request.
