2.0 SUMMARY

This application seeks to rezone from the A1- Agriculture 1 zone to the A1(s) – Agriculture with a secondary suite zone to construct a secondary suite in an accessory building.

3.0 BACKGROUND

An accessory building on the subject property was destroyed by fire in 2008. The applicant chose to rebuild the accessory building to incorporate living space to accommodate a home office and recreational space for their family. The applicant is rezoning as they want to have the flexibility to use the space as a secondary suite in the future.

The accessory building consists of a three car garage, workshop and carport on the ground level with a home office and planned 72.44 m² suite above.

The proposed application meets the requirements of A1(s) – Agriculture with a secondary suite zone as follows:

North A1 – Agriculture - residential

East A1 – Agriculture - residential

South A1 – Agriculture - residential

West A1 – Agriculture – City land

3.2 Site Location: 353 Clifton Road

4.0 **CURRENT DEVELOPMENT POLICY**

The applicant proposes to rezone to the A1(s) Agriculture with a secondary suite zone. The purpose of this zone is to allow for secondary suites in agricultural areas.

4.1 City of Kelowna Strategic Plan (2004)

Objective #4 – Realize construction of housing forms and prices that meet the needs of Kelowna residents.

Objective #5 – Achieve accessible, high quality living and working environments.

Objective #7 – Sensitively integrate new development with heritage resources and existing urban, agricultural and rural areas.

4.2 Kelowna 2020 – Official Community Plan

The proposal is consistent with the future land use designation of Single/Two Unit Residential in the Official Community Plan. The Single/Two Unit Residential designation covers single detached homes for occupancy by one family, single detached homes with a secondary suite, semi-detached and detached buildings used for two dwelling units, and complementary uses (OCP, Chapter 8).

5.0 TECHNICAL COMMENTS

The application has been submitted to various technical agencies and City departments, and the following relevant comments have been submitted:

5.1 Environmental Department

The Environment and Land Use Management Branch is not concerned with the proposed rezoning from A-1 to A-1S; however, the applicant must provide a draft no build/no disturb Section 219 Restrictive Covenant, which is to be registered under the Land Title Act against the title of the subject property to effectively preserve the steep slope areas.

5.2 Development Engineering Branch

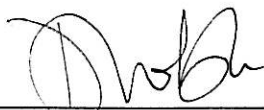

See attached

5.3 Building and Permits

Upgrade building permit(#37401) fees and drawings prior to rezoning approval.

6.0 LAND USE MANAGEMENT DEPARTMENT COMMENTS

Land Use Management staff recommend that this rezoning application be supported, as it represents a sensitive infill project, consistent with the policies contained within the OCP. The property is in an area that is zoned agriculture, although functions as a large lot single family neighbourhood. The proposal allows for more efficient use of the subject property and helps to diversify the housing supply in the area. The applicant has written consent from all adjacent properties for this project. Registration of a no-build / no-disturb covenant is required to preserve the steep slope areas on the eastern portion of the parcel.
