4.0 CURRENT DEVELOPMENT POLICY

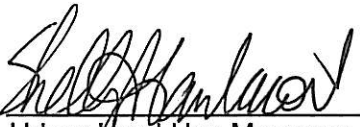

4.1 Council Strategy for the Elimination of Remaining Land Use Contracts

- that a Land Use Contract be discharged for any contract where there has been a change in use or density from what was originally intended by the Land Use Contract;
- that where the City of Kelowna had entered into a Land Use Contract that contains a cancellation clause contingent on failure to develop and use the lands, the City proceed to discharge the Land Use Contract;
- that the City of Kelowna initiate proceedings to discharge Land Use Contracts that have provisions enabling the City to unilaterally discharge the contracts subject to consultation with affected owners of the land and subject to prior approval by Council with regard to affected contracts;
- that staff negotiate with owners of land under Land Use Contracts that only enabled the subdivision of land, to discharge contracts where the subdivision has been completed;
- that priority be given to terminate Land Use Contracts having a significant financial impact or those Land Use Contracts that enable development contrary to the fulfillment of community objectives.

5.0 LAND USE MANAGEMENT DEPARTMENT

The Land Use Management Department has no concerns with the discharge of the Land Use Contract from the land title of the subject property. The existing site development complies with the requirements of the underlying C4 – Urban Centre Commercial zone.

In conclusion, the Land Use Management Department supports this application, and recommends for positive consideration by Council.
