Subject: Making Memories Performance of The Nutcracker for Children of Kelowna

Sharon and Michele,

I want to bring your attention to a marvelous community-wide collaboration that is taking place on Sunday, December 13 at the Kelowna Community Theatre. The Canadian School of Ballet and Ballet Kelowna have collaborated with six community partners who serve the children youth and families of Kelowna. We are filling the Kelowna Community Theatre after the normal run of The Nutcracker for an extra performance just for low-income kids who would not have an opportunity to have this experience otherwise. We have more deserving children than seats at this time.

Everyone is donating their time and resources to make this event happen. Fabricland has donated the cloth and made stockings for each child and many local businesses are donating gifts to put in these stockings. We are thankful to public transit for offering families a free ride to the theatre that day on their regular routes.

We invite the City of Kelowna to join all the community partners and sponsors who are donating to make this dream a reality and kindly donate the rental fee of the theatre for this one special day, one special performance for many special children from Kelowna. Below is an outline of text to appear in the programme. We hope that we can list the City of Kelowna as a sponsor.

Best,

Alison Moore
