AND THAT the zone amending bylaw be forwarded to a Public Hearing for further consideration.

2.0 SUMMARY

This application seeks to rezone from the RU1- Large Lot Housing zone to the RU1s - Large Lot Housing with Secondary Suite zone in order legalize an existing suite located within the existing single family dwelling located on the subject property.

3.0 THE PROPOSAL

There is an existing single family dwelling on the subject property which was constructed on the property in 1969. In 1979, there was a building permit issued to authorize an addition for a recreation room, where the un-authorized suite has been located.

A handwritten signature in black ink, located in the bottom right corner of the page.

The current owners purchased the property in June 2009. In October 2009, application was made for a building permit for major renovation of the dwelling, which also included work on the suite portion. It was determined that the work on the suite could not be authorized until the non-conforming zoning was corrected, therefore the owners wish to rezone the property in order to legalize the existing suite.

The proposed application meets the requirements of RU1s Large Lot Housing with a Secondary Suite zone as follows:
