North	RU1h	Large Lot Housing (Hillside Area)
South	RU1h	Large Lot Housing (Hillside Area)
East	RU1h	Large Lot Housing (Hillside Area)
West	RU1h	Large Lot Housing (Hillside Area)

3.2 Site Location: 1199 Loseth Drive

4.0 CURRENT DEVELOPMENT POLICY

The RU1h(s) - Large Lot Housing (Hillside Area) with Secondary Suite zone is being proposed for this property. The purpose of this zone is to provide for single detached housing as a principal use, and compatible secondary uses.

4.1 Kelowna 2020 - Official Community Plan

The proposal is consistent with the future land use designation of Single/Two Unit Residential in the Official Community Plan. The Single/Two Unit Residential designation covers single detached homes for occupancy by one family, single detached homes with a secondary suite, semi-detached and detached buildings used for two dwelling units, and complementary uses.

5.0 TECHNICAL COMMENTS

The application has been submitted to various technical agencies and City departments, and the following relevant comments have been submitted:

5.1 Development Engineering

Subdivision

Provide easements as required.

Sanitary Sewer

The subject property is connected to the Municipal wastewater collection system.

5.2 Irrigation District

The subject property is located within the Black Mountain Irrigation District (BMID). All charges and fees must be paid directly to BMID.

5.3 Fire Department

Requirements of Section 9.36, Secondary Suites, of the BCBC 2006 are to be met. Fire separations as per BCBC 2006. Additional address may be required.

5.4 Bylaw Services

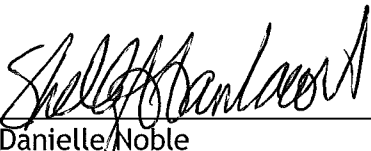

No objections

6.0 LAND USE MANAGEMENT DEPARTMENT COMMENTS

This proposal allows for more efficient use of the subject property and helps to diversify the housing supply in the area. The Black Mountain area already contains many similar style homes that have legalized secondary suites.

The Land Use Management Department notes that policies within the Official Community Plan support the sensitive integration into existing neighbourhoods, where services are already in place and densification can easily be accommodated. Minimal impact (if any) is anticipated on abutting properties, as parking requirements and private open space provisions can easily be achieved on-site.
