5.0 CURRENT DEVELOPMENT POLICY

The RU1s - Large Lot Housing with Secondary Suite zone is being proposed for this property. The purpose of this zone is to provide for single detached housing as a principal use, and compatible secondary uses.

5.1 Kelowna 2020 - Official Community Plan

The proposal is consistent with the future land use designation of Single/Two Unit Residential in the Official Community Plan. The Single/Two Unit Residential designation covers single detached homes for occupancy by one family, single detached homes with a secondary suite, semi-detached and detached buildings used for two dwelling units, and complementary uses.

6.0 TECHNICAL COMMENTS

The application has been submitted to various technical agencies and City departments, and the following relevant comments have been submitted:

6.1 Development Engineering

Sanitary Sewer - The subject property is connected to the Municipal wastewater collection system.

Domestic Water - The subject property is located within the Black Mountain Irrigation District (BMID). All charges and fees must be paid directly to BMID.

Parking - Parking is provided with the ineffective but accepted stacking method

6.2 Fire Department

Requirements of Section 9.36, Secondary Suites, of the BCBC 2006 are to be met. Fire separations as per BCBC 2006. Additional address may be required.

6.3 Bylaw Services

No concerns. Building permit required for suite.

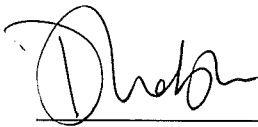

7.0 LAND USE MANAGEMENT DEPARTMENT COMMENTS

Land Use Management staff recommend that this rezoning application be supported, as it represents a sensitive infill project, consistent with the policies contained within the OCP. This proposal allows for more efficient use of the subject property and helps to diversify the housing supply in the area.

This relatively new area of Kelowna attracts many young families which in many cases utilize the suite as a mortgage helper. Many of the surrounding homes have rezoned or are in the process of rezoning to allow a secondary suite.

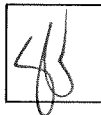

Minimal impact (if any) is anticipated on abutting properties, as parking requirements and private open space provisions can easily be achieved on-site.
