

Memo

Date: March 10, 2010
File: 0530-01
To: City Manager
From: Bill Berry, Director, Design & Construction Services
Subject: 2010 Capital Projects

Recommendation:

THAT Council receive the presentation from the Director of Design and Construction Services, dated March 10, 2010, for information.

Background:

Annually, the Design & Construction Services Department (and formerly the Works & Utilities Dept.) hosts a session with the local Media to provide a snapshot of some of the Capital projects that are anticipated for the coming year. This session occurred recently on March 4th, and was well attended and subsequently the Community was well served by the advance notice of upcoming Construction projects. This is one component of the City's public information program for Construction projects.

This presentation is a condensed version of the same presentation, to provide City Council with a visual picture of some of the significant 2010 Construction projects.
