**7.0 LAND USE MANAGEMENT DEPARTMENT COMMENTS**

This proposal allows for more efficient use of the subject property and helps to diversify the housing supply in the area. The Land Use Management Department notes that policies within the Official Community Plan support the sensitive integration into existing neighbourhoods, where services are already in place and densification can easily be accommodated. Minimal impact (if any) is anticipated on abutting properties, as parking requirements and private open space provisions can easily be achieved on-site.
