

Central Okanagan Community Gardens

~"Gardens Grow Healthy Communities"

CITY OF KELOWNA

OCT 15 2010

Our Mission: To help neighborhoods & communities create sustainable green spaces for gardening, food production, gathering, and education.

ADMINISTRATION DEPARTMENT

Dear Mayor and Council,

As a city that is passionate about environmental issues and has implemented many green initiatives in recent years, the citizens of Kelowna are asking you to take your vision a step further.

By signing this petition, we ask you to strongly consider initiating a bylaw that would require all future multi-family developments to have garden space provided for residents' use. This action would have many benefits including:

- improved health and wellness;
- building of community through connections with neighbours;
- taking ownership of where one's food comes from
- increased education of the importance of organically grown food
- reduced carbon footprint
- increased creative experience

Thank you.
OOF September 26, 2010
