

- ### Phase 1
- Public Consultation
  - Background Report
    - Demographic and Land Use Assessment
    - Establish Baseline
  - Regional Issues

- ### Public Consultation
- Raise the level of awareness of the RGS
  - Obtain input to the future regional vision
  - Identify issues of concern to growth management
- 

- ### Participation Summary
- 189 workbooks completed
  - Over 500 residents
  - Elected Officials
  - RDCO Environment and Agriculture Advisory Committees
  - Website – 738 visits
- 

- ### Identified Issues
- Water Resources
  - Rapid Growth and Development into Rural Areas
  - Protection of Agriculture
  - Housing Affordability
  - Multi-modal Transportation Options
  - Environmental, Open Space And Sensitive Areas Protection
  - Air Quality
  - Health Services
  - Energy Efficiencies
  - Employment for Youth and Young Families

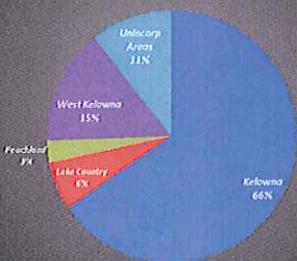

### Background Report

- Overview of:
  - Demographic
  - Housing Stock
  - Transportation
  - Economic Development
  - Parks and Natural Areas
  - Climate Change and GHG emissions
  - Discussion Points and Key Regional Issues

### Population

- Population growth (2000 – 2009)
  1. RDCO – 21.2%
  2. Nanaimo – 14.6%
  3. Metro – 12.6%
- Median Age
  - Central Okanagan – 43.4 years
  - Province – 40.8 years
- Population Category – 65 years and older
  - 2001 – 18.5%
  - 2006 – 19.0%
  - 2036 – 25.5%

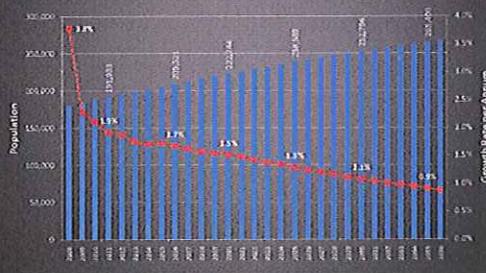

### Historical Average Regional Population Distribution

Census 1996 - 2006

### Population

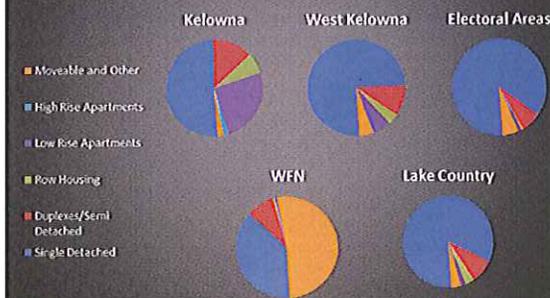

- BC Stats PEOPLE 35 Model (Yr 2036)
  - RDCO – 270,384

### RDCO Housing Breakdown

### Regional Housing Breakdown

### Housing Projection

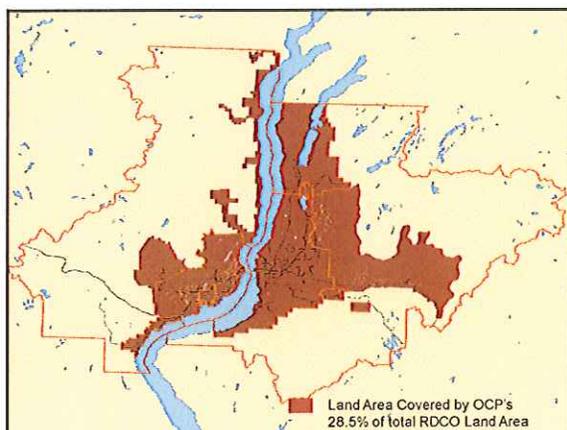

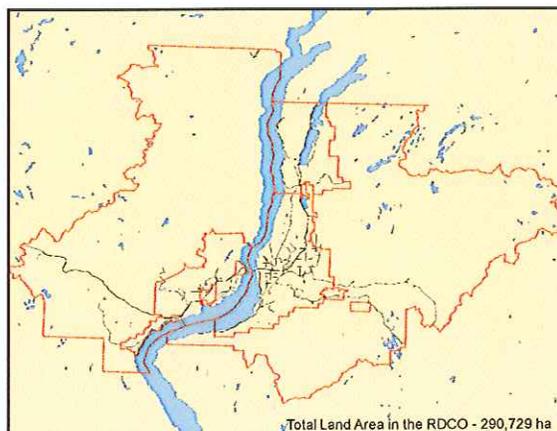

### Major Projects Inventory

| Project Process                        | Number of Projects | Number of Units |
|--|--------------------|-----------------|
| Approved (under construction)          | 358                | 7778            |
| Zoning in Place                        | 9                  | 2356            |
| Zoning Application                     | 18                 | 4812            |
| Neighbourhood Plan/Area Structure Plan | 17                 | 12955           |
| Identified Future Growth               | 2                  | 325             |
| <b>Total</b>                           | <b>404</b>         | <b>28,226</b>   |

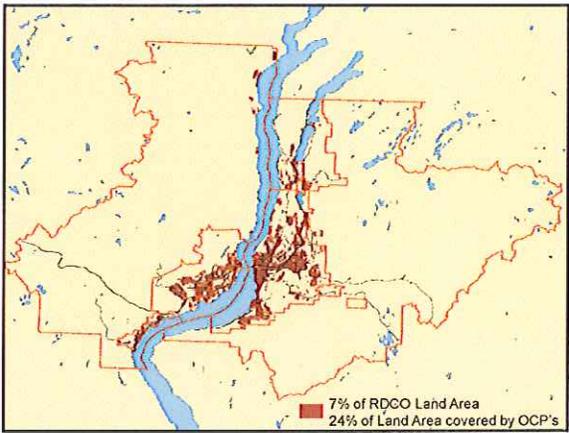

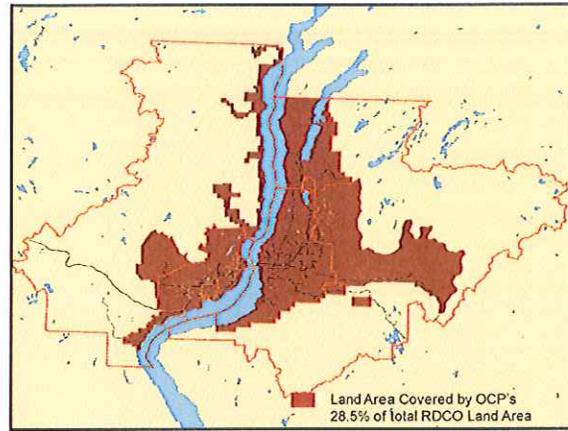

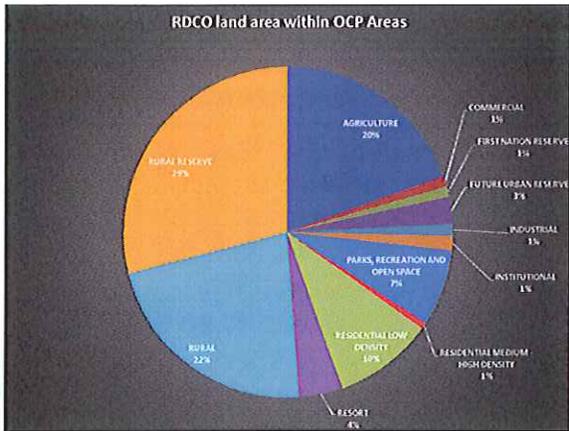

### Land Inventory

| Land Area                                    | ha      |       |
|--|---------|-------|
| Total Land Area within RDCO Boundaries       | 290,736 |       |
| Total Land Area within NORD Boundaries       | 787,190 |       |
| Total Land Area within RDOs Boundaries       | 751,194 |       |
| RDCO Land Area covered by OCP's              | 82,956  | 28.5% |
| ALR Land within RDCO                         | 27,272  | 9.4%  |
| ALR Land within OCP's                        | 20,627  | 24.9% |
| Hazard Land DPA's within OCP's               | 33,533  | 40.4% |
| Natural Environment Lands DPA's within OCP's | 23,804  | 28.7% |

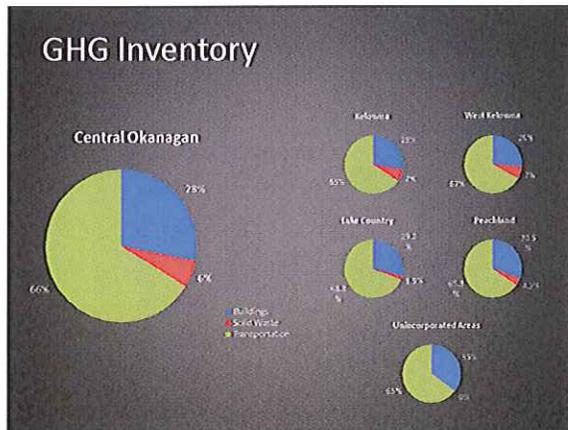

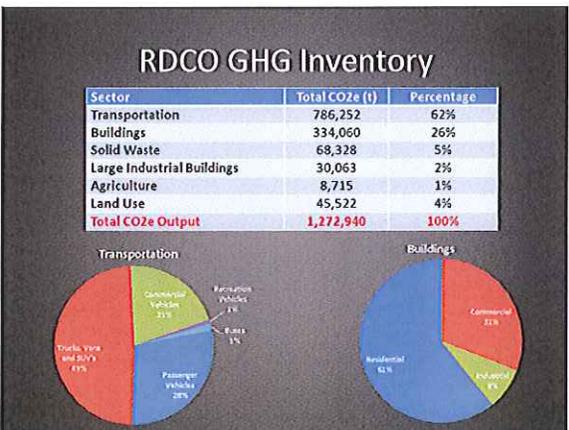

| FUTURE LAND USE DESIGNATION         | Size (ha)     |       |
|-------------------------------------|---------------|-------|
| Rural Reserve                       | 24,043.2      | 28.4% |
| Rural                               | 18,448.6      | 22.2% |
| Agriculture                         | 16,238.0      | 19.6% |
| Residential Low Density             | 8,040.5       | 9.7%  |
| Parks, Recreation And Open Space    | 6,190.6       | 7.5%  |
| Resort                              | 3,506.3       | 4.2%  |
| Future Urban Reserve                | 2,183.4       | 2.6%  |
| First Nation Reserve                | 1,369.0       | 1.7%  |
| Institutional                       | 1,144.9       | 1.4%  |
| Industrial                          | 971.7         | 1.2%  |
| Commercial                          | 812.9         | 1.0%  |
| Residential Medium and High Density | 526.5         | 0.6%  |
| <b>Total</b>                        | <b>82,956</b> |       |

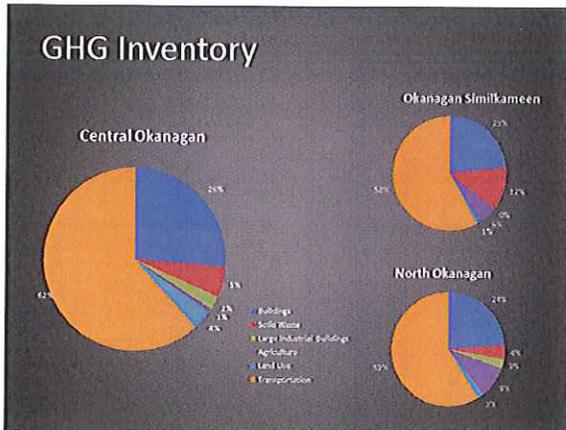

\*Rural Reserve, Rural and Agriculture account for 70.2% of land within OCP's  
 \*Potential development on 30% of land within OCP's (24,736 ha)

### Climate Change

- LGA requires RGS to set emission targets and monitor progress
- CEEI Inventories

### GHG Reduction Targets

\* Based on 2007 levels

| Municipalities          | Target for 2020        |
|-------------------------|------------------------|
| Kelowna                 | 33%                    |
| West Kelowna            | 33%                    |
| Peachland               | 33%                    |
| Lake Country            | 33%                    |
| Electoral Areas         | 33%                    |
| RGS                     | ?                      |
| North Okanagan RD       | 15%                    |
| Okanagan-Similkameen RD | 15% by 2030 (proposed) |

### Next Steps

- Issue Areas
- Start Phase 2 of RGS Review
  - Development of Growth Options
  - Continue Regional Consultation

### Additional Information
