

Report to Council

Date: November 23rd, 2012
File: RTE12-0003
To: City Manager
From: Urban Land Use Manager
Subject: 598 Sutherland Avenue - Revitalization Tax Exemption & Housing Agreement
Report Prepared by: Alec Warrender

Recommendation:

THAT Council approves the City of Kelowna entering into Revitalization Tax Exemption Agreement with Vant Construction Ltd., Inc. No. BC0766256 for Lot A (being a consolidation of lots 1 and 2, see LB403940) District Lot 14 ODYD Plan 1239 in the form attached to the report from Land Use Management dated November 20th, 2012;

AND THAT Council forward Bylaw No. 10781 authorizing a Housing Agreement between the City of Kelowna and Vant Construction Ltd., Inc. No. BC0766256 which requires the owners to provide 16 purpose built rental units for a period of ten years on Lot A (being a consolidation of lots 1 and 2, see LB403940) District Lot 14 ODYD Plan 1239, located on 598 Sutherland Avenue, Kelowna, BC, for reading consideration;

AND FURTHER THAT the Mayor and City Clerk be authorized to execute the Revitalization Tax Exemption Agreement.

Purpose:

The applicant is applying to enter into a Revitalization Tax Exemption Agreement and a Housing Agreement in accordance with Revitalization Tax Exemption Bylaw No. 9561.

Background & Proposal:

The subject property is designated Multiple Unit Residential (medium density) in the OCP and as such the proposed 16 unit rental apartment building is in compliance with the OCP and RM5 zoning. As a rental housing project, this proposal could qualify for the 100% Revitalization Tax Exemption given that Kelowna's 2012 vacancy rate is at 3% which is a requirement for consideration. The applicant has also agreed to enter into a Housing Agreement to secure the units for a period of 10 years to guarantee the retention of the rental units.

A Development Permit for the project was recently approved by Council under DP12-0115. The subject property has been used as a surface parking lot by the neighbouring church for a number of years. Staff considers the redevelopment of surface parking lots within the urban core a positive step towards achieving the livability goals as established in the 2030 OCP. The proposal as submitted also meets the intent of the 2030 OCP Design Guidelines. The project is

centrally located, has convenient access to transit and will fit within the established apartment housing neighbourhood. The project will provide newer rental apartment housing stock in an area that provides other rental options in a variety of aging rental units.

As the project is a purpose built rental development, the rental project qualifies for a 100% exemption on the incremental increase in assessed value related to the onsite improvements for the rental housing project. Aided by the proposed Revitalization Tax Exemption Agreement, the proposed redevelopment of a private surface parking lot will further support revitalization of the Urban Core. In any case this shall not be more than the incremental increase in the assessed value of improvements on the Parcel between the year before the commencement of construction of the Project, and the year following the issuance of the Tax Exemption Certificate (and not exempt from any local service tax payable). The Tax exemption will be valid for the years of 2015-2024.

Existing Policy:

Financial/Budgetary Considerations:

Performance Criteria for the Project

The subject property has been used as a surface parking lot for the neighbouring church for a number of years. Staff consider the redevelopment of surface parking lots within the urban core a positive step towards achieving the livability goals as established in the 2030 OCP. The proposal as submitted also meets the intent of the 2030 OCP Design Guidelines. The project is centrally located, has convenient access to transit and will fit within the established apartment housing neighbourhood. The rental housing apartment project will provide newer rental apartment housing stock to an area that provides other rental options in a variety of aging rental units. Specific Performance Criteria are as follows:

- The streetscape presence is positive, with a well-detailed facade, varied materials, appropriate siting, and complementary landscaping features.
- High quality materials are proposed throughout, including black cultured stone, glass, stucco, and aluminium window frames.
- The new 4 storey building will include 16 rental housing units.
