Determination of Equivalent Dwelling Units (EDU's)

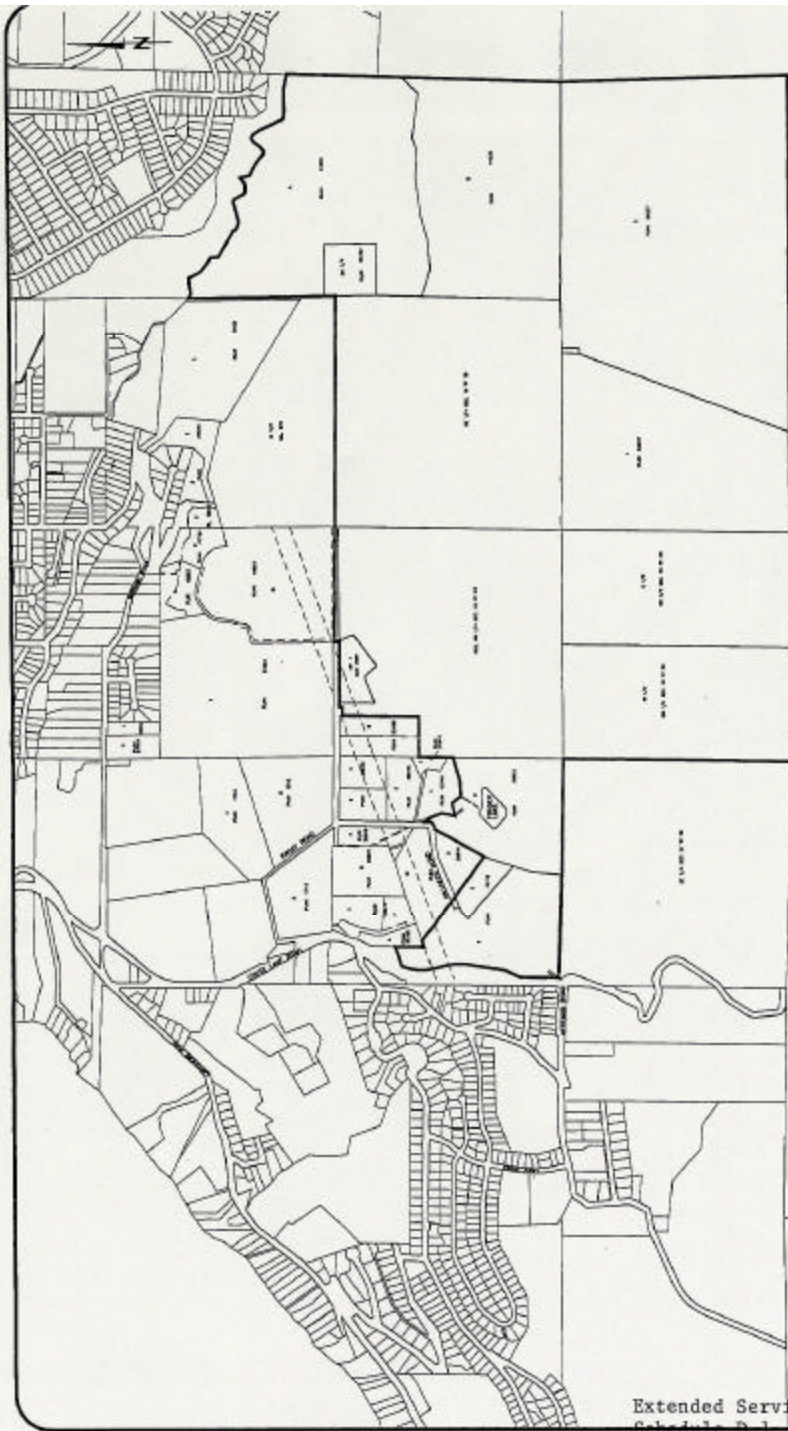

EDU's calculated for a building or parcel will be done on the basis that the minimum of any conversion will be one EDU, and any building or land area resulting in less than one EDU will be rounded up to one EDU. Conversions that result in greater than one EDU will be calculated to two decimal points, using standard algebraic rounding.

TABLE D.1
BASIS FOR DETERMINING NUMBER OF EQUIVALENT UNITS

Basis: 1.0 single family residential unit equals 1.0 Equivalent Dwelling Unit (EDU)

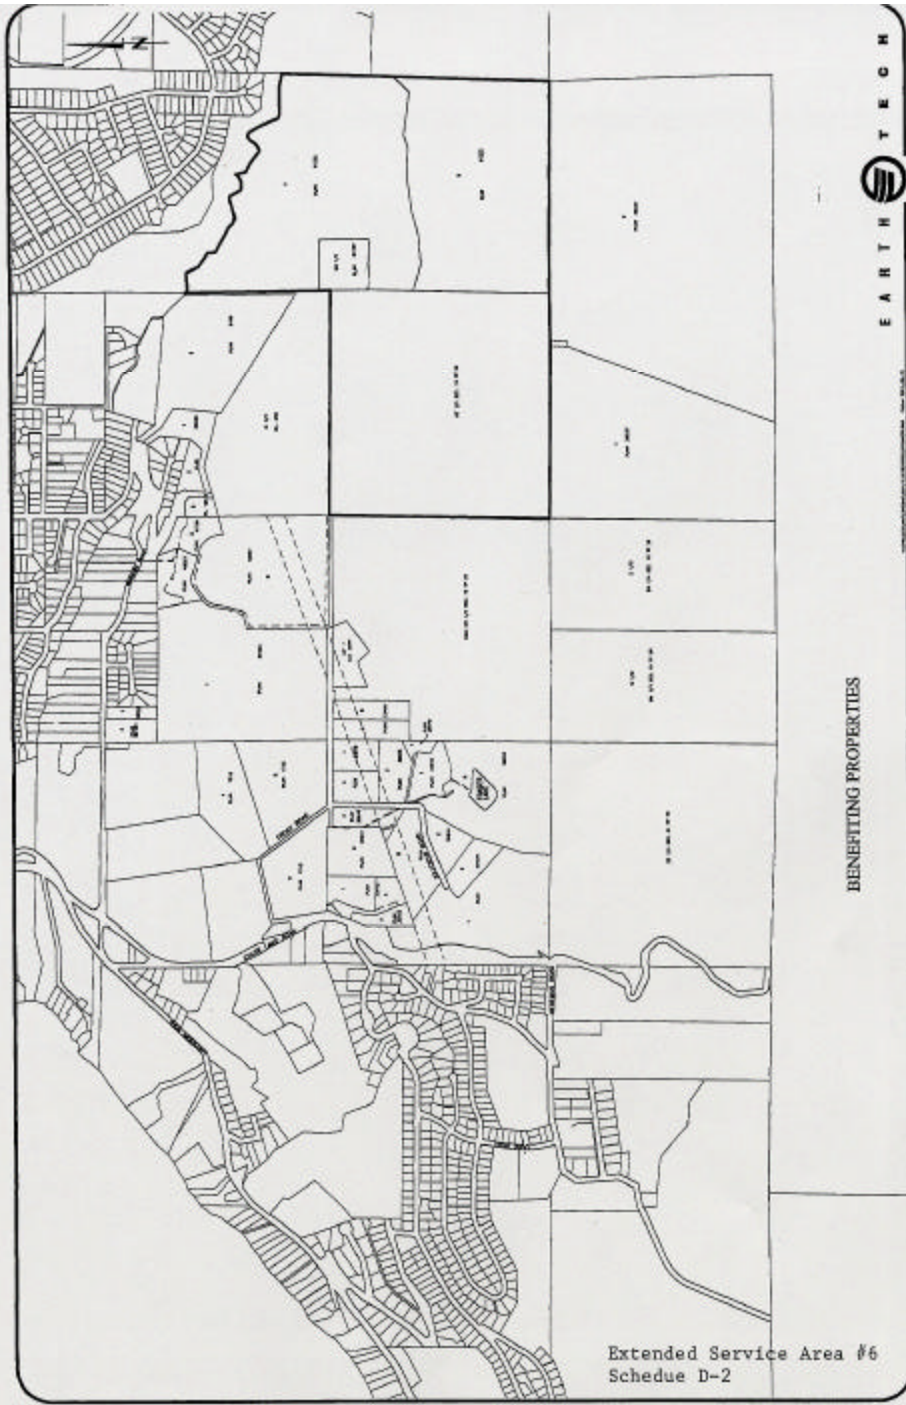

Zoning category as determined by Section 1.3.1 of Zoning Bylaw No. 8000	Factor
Residential	Each building lot, residential unit, group home or lodging house or mobile home space is one EDU. For "Multi-Family High Density Residential" units, as defined in the current Development Cost Charge Bylaw 7728, each multi-family high density residential unit equals .70 EDU.
Commercial	The first 2,600 square feet of floor area or portion thereof equals 1 EDU. Thereafter, 1/2600 EDU per square foot of floor area.
Industrial	The first .36 acres of developed land or portion thereof equals 1 EDU. Thereafter, 2.8 EDU's per acre of developed land.
Public and Institutional	The first 2,600 square feet of floor area or portion thereof equals 1 EDU. Thereafter, 1/2600 EDU per square foot of floor area. For schools, 50 elementary students equals one EDU and 35 middle or senior students equals one EDU.

Note: Developed Land means that portion of area of a lot containing any improvements for the accommodation of a structure, storage, parking, landscaping or any entity, thing or device to facilitate the permitted use. Landscaped areas are exempt from charges industrial land use designations only.
