Ricco Room Project Rationale

The Ricco Room (formerly Ricco Bambino) is updating its operational concept from an urban wine manufacturing site to a Cocktail Lounge Liquor Primary establishment. It is under new ownership and management.

This concept focuses on bespoke cocktails, with a late afternoon to evening service structure. The concept will also feature a more extensive food menu and locally produced wines and beer. Sample food menu is attached below.

The existing liquor licence limits the establishment to only be open 5 days a week, thus ownership is seeking a change of hours to allow the operation to run 7 days a week. On week days the operation will only be open from 3pm onwards, however it has been recommended we seek liquor service hours starting at 11am in case ownership wishes to expand to include lunch service in the future. Due to the location of Ricco Room, we would limit outdoor seating hours to 11pm or earlier, and indoor hours to 2am.

For clarity, ownership is seeking the following liquor service hours:

Interior hours – Sunday – Thursday 11am to 12am, Friday and Saturday 11am – 2am

Exterior hours – Seven days per week 11am to 11pm

Should the city of Kelowna have additional restrictions for this address, ownership is happy to work within the guidance of the city.

This request should have no impact on the local community as it already encompasses similar hours to the existing licence, merely creating more consistency throughout the course of the week.

We appreciate your consideration in this matter.

Best regards,

Bobby Izat and the Ricco Room Team
