4. AUTOMATED VOTING PROCEDURES

4.1 The presiding election official for each voting place and at each advance voting opportunity, shall, as soon as the elector enters the voting place, and before a ballot is issued, offer, and if requested, direct an election official to provide a demonstration to an elector, of how to vote using an automated vote counting system.

4.2 Upon completion of the voting demonstration, if any, the elector shall proceed as instructed, to the election official responsible for issuing ballots, who:

(a) shall ensure that the elector:

   (i) is qualified to vote in the election; and
   (ii) completes the voting book as required by the Local Government Act.

4.3 Upon being given a ballot, and secrecy sleeve if so requested, the elector shall immediately proceed to a voting compartment to vote.

4.4 An elector who is visually impaired or has physical impairments that would make it difficult or impossible to mark a ballot in the usual way may request use of the voter assist terminal at Parkinson Recreation Centre, 1800 Parkinson Way voting location.

(a) An elector who is visually impaired can choose to listen to the voting choices through provided headphones;

(b) An elector who is unable to touch the screen or pad may use the sip/puff tube to vote; or

(c) An elector who have vision limitations may use the zoom feature enabling the elector to have the font size on the screen enlarged.

4.5 The elector may vote only by making an acceptable mark on the ballot:

(a) beside the name of each candidate of choice, up to the maximum number of candidates to be elected for each of the offices of Mayor, Councillor, and School Trustee; and

(b) beside either “yes” or “no” in the case of each bylaw or other matter on which the assent of the electors is sought.

4.6 Once the elector has finished marking the ballot, the elector must place the ballot into the secrecy sleeve and under the supervision of the election official in attendance, insert the ballot directly from the secrecy sleeve, if applicable, into the vote tabulating unit without the acceptable marks on the ballot being exposed.

4.7 If, before inserting the ballot into the vote tabulating unit, and elector determines that a mistake has been made when marking a ballot or if the ballot is returned by the vote tabulating unit, the elector may request a replacement ballot by advising the election official in attendance.
4.8 Upon being advised on the replacement ballot request, the presiding election official shall issue a replacement ballot to the elector and mark the returned ballot “spoiled” and shall retain all such spoiled ballots separately from all other ballots and they shall not be counted in the election.

4.9 If the elector declines the opportunity to obtain a replacement ballot, and has not damaged the ballot to the extent that it cannot be reinserted into the vote tabulating unit, the election official shall, using the ballot return override procedure, reinsert the returned ballot into the voted tabulating unit to count any acceptable marks which have been made correctly.

4.10 Any ballot counted by the vote tabulating unit is valid and any acceptable marks contained on such ballots will be counted in the election, subject to any determination made under a judicial recount.

4.11 Once the ballot has been inserted into the vote tabulating unit and the unit indicates that the ballot has been accepted, the elector must immediately leave the voting place.

4.12 During any period that a vote tabulating unit is not functioning, the election official supervising the unit shall insert all ballots delivered by the electors during this time, into a portable ballot box, provided that if the vote tabulating unit:

(a) becomes operational, or
(b) is replaced with another vote tabulating unit,

the ballots in the portable ballot box shall, as soon as reasonably possible, be removed by an election official, and under the supervision of the presiding election official be inserted into the vote tabulating unit to be counted.

4.13 Any ballots which were temporarily stored in a portable ballot box, which are returned by the vote tabulating unit when being counted, shall, through the use of the ballot return override procedure, and under the supervision of the presiding election official, be reinserted into the vote tabulating unit to ensure that any acceptable marks are counted.
