Schedule '4' – Development Variance Permit Applications

This Schedule describes the process applicants must follow for Development Variance Permit applications, including application requirements and processing procedures. Following the steps outlined below does not grant a right to development approval.

1.0 DEVELOPMENT VARIANCE PERMITS

1.1 Minor Development Variance Permits

1.1.1 Restriction on Delegation – Minor Criteria

As a restriction on Section 2.3.7(a), only 'Minor' Development Variance Permits can be approved by the Department Manager, Development Planning. As required by Section 498.1(2)a of the Local Government Act, the criteria for determining whether a proposed variance is minor is determined by the following:

1. Minor variances only apply to Zoning Bylaw No. 12375 (except Section 9 of Zoning Bylaw No. 12375) and not to other bylaws (such as the Sign Bylaw); AND
 - a. A Development Variance Permit application is submitted when an associated Form and Character Development Permit application is not required; OR
 - b. A Development Variance Permit application is submitted for any commercial or industrial development in which the authority for the Form and Character Development Permit has been delegated to the Department Manager, Development Planning; OR
 - c. A Heritage Alteration Permit application is submitted with variances in which the authority for the Heritage Alteration Permit has been delegated to the Department Manager, Development Planning.

1.1.2 Restriction on Delegation – Guidelines

As required by Section 498.1(2)b of the Local Government Act, the guidelines the delegate must consider in deciding whether to issue a Development Variance Permit is determined by the following:

1. Scope and scale of variances.
 - a. For example, if a significant parking variance is proposed then the delegate could deny the permit and the applicant can apply to have the permit reconsidered by Council.
2. Use and enjoyment of neighbouring lands.
 - a. A variance could negatively impact or affect adjacent buildings and uses. For example, a setback variance that would result in a primary window of neighbouring property staring at a large blank wall, then the delegate could deny the permit and the applicant can apply to have the permit reconsidered by Council.
3. Effects on the natural environment.
 - a. For example, if a variance would have a detrimental effect on the environment as determined through the Natural Environment Development Permit approval process, then the delegate could deny the permit and the applicant can apply to have the permit reconsidered by Council.

4. Appropriateness of the development.
 - a. A variance could decrease the appropriateness of the development if certain Official Community Plan policies and guidelines were not followed due to the variance. For example, if a setback variance increases the area of the home within a 30% steep slope area, then this would decrease the appropriateness of the development and then the delegate could deny the permit and the applicant can apply to have the permit reconsidered by Council.
5. Intent of the Zoning Bylaw
 - a. A variance could undermine the purpose of a regulation. For example, the purpose of the 70% maximum upper floor area limit on carriage houses relative to the carriage house footprint is to prevent carriage house 'box' designs and a variance to this regulation could undermine the purpose of this regulation. Then the delegate could deny the permit and the applicant can apply to have the permit reconsidered by Council.
6. Public interest in variances
 - a. For example, if a variance triggers a significant public response to the Development Planning Department Manager during the public consultation period, then the delegate could deny the permit and the applicant can apply to have the permit reconsidered by Council.

Applications not eligible for issuance or amendment by the Department Manager, Development Planning must be considered by Council and are subject to the requirements listed in Schedule '4', Section 1.2 – Development Variance Permits, below.
