WHEREAS the District has requested that the City provide a ladder truck to perform emergency fire suppression work on an as needed basis within the District; and

WHEREAS it is anticipated that any request for dispatch of a ladder truck should be expedited as quickly as possible;

2. Upon receipt of a request from the District, as outlined in section 1 above, and in the opinion of the City’s Fire Chief so long as the Ladder Truck is available, the City shall dispatch the Ladder Truck to the District immediately. Along with the Ladder Truck, the City shall also provide and dispatch with it three qualified employees to operate the Ladder Truck within the boundaries of the District.
3. The District’s Fire Officer in command of an incident to which the Ladder Truck has been dispatched shall remain in command and shall direct the Ladder Truck’s usage in addition to directing the use of the District’s resources. Where technical matters related to the operation of the Ladder Truck arise, the District’s Fire Officer in command and the City’s employee(s) dispatched with the Ladder Truck shall co-operate in the best interests of all parties and bystanders.
4. As soon as the emergency to which the Ladder Truck has been dispatched has been brought under control the Ladder Truck and the City’s employees shall be released before any District resources are released.

Despite sections 2 – 5 above, the Ladder Truck shall remain available for emergency use by the City and may be called upon, if deemed necessary at the discretion of the City's Fire Chief, to perform emergency work in the City at any time during use by the District pursuant to those sections. If the Ladder Truck is called upon by the City to leave an emergency the City shall not be liable for any loss, costs, damages and expenses whatsoever in connection with leaving an emergency.
